Jodi Buswell, USA

"I had an amazing experience that changed my life! Working with the children was challenging at times, but so rewarding. I truly felt I was submerged in the Italian culture. I would definitely participate in this program again."

Jennica Paterniti, USA

"I've learnt a great deal about Italy, its culture, its language, its traditions, its school system and most importantly about me. I can truly say that in these three months I've grown as an individual and that I will never be the same. Amazed at how only one program can give you all that"

Daniel A. Meza Rincon, USA

"The landscape and history of the cities and countryside, along with the depth of the Italian peoples' value of family, religion and country wove an incredible experience for me that has become a highlight of my life. Thank you."
